

Save all information about hosts and visitors

Posted by user2614 - 2010/05/24 06:18

Save all information about hosts and visitors (~1 month ago)

All information: host, what sites open - like in normal statistic

its posible to get this informations somewhere ?

There is new feature History in 1.2.11, also available for download, but still in beta and needs some more testing

you mean to do an upgrade? If you have 1.2.9, then backup all joomlawatch_* tables except joomlawatch_config, uninstall 1.2.9, install 1.2.11b, restore tables.
